

# Andrew Johnson National Cemetery

The Andrew Johnson National Cemetery resides on land purchased by our former president in 1852. A peaceful spot with remarkable views, it was Johnson's favorite place to think and relax. It became his final resting place in July 1875.

Managed by the War Department from 1906 until 1942, the cemetery was then placed under the administration and care of the National Park Service.

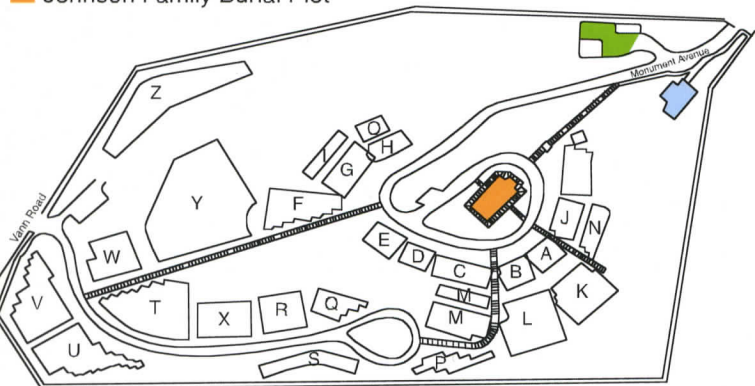

Since 1909, qualified veterans of the United States Armed Forces have joined Andrew Johnson in this historic presidential cemetery. More than a century later, it's still a resting place for eligible veterans.
